

SILICONE

ROOF COATING SYSTEM

"The name trusted in roofing since 1906"

SUSTAINABLE, COST-CUTTING SILICONE SOLUTION

With the Silicone Roof Coating System from Mule-Hide Products, contractors can offer an environmentally friendly restoration option with:

Superior Resistance to Ponding Water—low water absorption outperforms conventional solvent and water-based protective roof coatings

Same Day Recoating—possible with its quick cure time

Low Odor—solvent-free formula; VOC compliant in all of North America

Energy Savings—meets CRRC® cool roof requirements by reflecting solar energy and reducing interior building temperatures. White 100% Silicone Roof Coating improves rooftop air conditioning unit efficiency.

Years of Durable, Low-maintenance Seamless Protection—control UV damage, reduce thermal shock, fully-adhered system seals off water entry points

Cost Savings—

Building Owner: No tear-off and disposal expense, minimal disruption to building occupants

Contractor: Reduces labor with quick, easy application; nominal upfront equipment investment

Tax Relief—A tax advantage for building owners while saving energy! Expensing coatings versus capital depreciation lowers cash outlays and maximizes tax expense allowances.

Restore and repair the following roof types:

- EPDM
- TPO
- PVC
- Modified Bitumen
- Asphalt
- Metal
- Concrete

WARRANTY PROGRAM

Mule-Hide offers a variety of warranties for Commercial and Residential projects including material and system warranties. System warranties are available for commercial projects when installed in strict compliance with Mule-Hide's specifications by a Mule-Hide Warranty Eligible Contractor. Residential projects may qualify for material warranties. Complete warranty information and requirements for the various warranties available may be found on the Mule-Hide web site at www.mulehide.com or by contacting Mule-Hide at 800-786-1492.

“GREEN” ALTERNATIVE

Every year, roof tear-offs add millions of tons of roofing materials to landfills. Go green by choosing roof coatings to restore existing roofs. When it's time for the coatings to be renewed, additional product is added to the roof, continuing the sustainable mission to reduce landfill waste.

STEP-BY-STEP INSTALLATION

PREPARE

To ensure best results, prep substrate for priming:

- Si Cleaner

PRIME

Improve adhesion of the top coat by selecting the correct primer for the roofing substrate.

- Si 2-Part Epoxy Primer (BUR, modified bitumen, aluminum coated roofs or any area with ponding water)
- Si TPO Primer (TPO membrane)

SEAL

Flexibility to use the thicker, mastic version of 100% Silicone Roof Coating as a multi-purpose sealant for repairs and maintenance along with reinforcement fabric.

- 100% Silicone Sealant
- Tietex™

COAT

Choose the right high-solids, 100% Silicone Coating with UV protection and reflectivity (white only):

- 100% Silicone Roof Coating (white, gray)
- 100% Silicone Masonry Wall Coating (white, gray)
- 100% Silicone Skylight Coating (clear)

CLEANUP

Wash tools & equipment.

- Si Cleaning Solvent

Prime

Seal

Coat

BEST PRACTICE TIP

Use 100% Silicone Roof Coating in Gray as the first coat, or base coat, and use White as the second coat.
