NEW ROOF CONSTRUCTION

North American Roofing has installed millions of sq. ft. of new roofs across the U.S. So if your next roofing project needs a unique blend of industry experience and leadership, give us a call today at 800.551.5602.

NEED A PROPOSAL ON A NEW ROOFING PROJECT? THEN YOU NEED A LEADER.

By choosing North American Roofing, you're insisting on an industry leader with experience in all membrane roofing systems, including TPO, EPDM, & PVC. We'll create strong alignment between your blueprint and budget, making sure you don't see a big disparity in the actual cost. By taking a consultative approach with your general contractor in the initial stages of development, we can assure scope alignment for your roofing system. Because each step we take is married to our own standards for attention to detail, we can detect gaps in scope to ensure your roofing needs are fully covered. And together, we can create major milestones for your new roof that work within your timeframe, keeping your project on-time and on-budget. North American's relationships with the major roofing manufacturers, like Firestone, Carlisle, and Johns Manville means we can meet your specifications. You're also choosing industry-best safety ratings (.65 EMR), and that's incredibly important for a new roof and navigating OSHA inspections. Your new roof isn't where you want to cut corners. It's where you want the confidence of choosing North American Roofing.

SAFETY FIRST: BY THE NUMBERS

- The average modifier is 1.0, meaning we offer 50% lower-than-average Experience Modification Rates (EMR) as demonstrated in Bureau of Labor Statistics Incident Reports.
- Highest-rated industry safety standards

ELITE STATUS WITH MANUFACTURERS

- Johns Manville – Pinnacle Council
- Carlisle – ESP & Firestone Inner Circle of Quality
- GAF – President's Club
- Firestone – Master Contractor
- Sika Sarnafil – Alliance Status
- FiberTite – Gold Level

WHY WE DO WHAT WE DO.

Since 1979, North American Roofing has been installing and servicing quality roofing systems across the U.S. From the beginning, we believed in providing quality workmanship and value-engineered roofing solutions for the commercial industry. But more than that, we believed in offering customers a pleasant and memorable experience. Let's face it, putting on a new roof or dealing with leaks and roof repairs is often times a very distressing process. Our goal – make it better. We believe that roofing doesn't have to be a difficult experience.

It can be collaborative and supportive. And that's the experience we work every day to provide for our customers. We don't just want to be "another roofing contractor." We want to be your partner—someone you can call on no matter what. Someone you feel confident in referring. Someone you can trust and respect.
