

Why Is **FIBERTITE**[®] the **INTELLIGENT** Roofing Solution?

Manufactured by a High Performance Fabric Leader

Fibertite is manufactured by Seaman Corporation, a global leader in high performance fabric for nearly 60 years.

Ultimate Quality Standards

We control our manufacturing process from beginning to end. We develop and mix our own compounds and even weave and knit our own fabric.

Lowest Life Cycle Cost

Factor in installation cost, expected life, maintenance and energy savings and we boast the lowest cost in the industry.

Proven Performance

Introduced in 1979, over 99% of all FiberTite roofing membranes installed are still performing today.

Unique Proprietary Design

Made from densely packed polyester yarn, a unique adhesive coat and a DuPont™ Elvaloy® KEE base polymer for superior puncture, chemical and weather resistance, and long-term flexibility.

Fewer Warranty Service Claims

FiberTite has one of the lowest warranty commitments in the industry.

Comprehensive Warranty

Our warranty does NOT exclude gale force winds, ponding water, oil, grease and environmental contaminants.

Meets KEE ASTM Standard

FiberTite is the only brand that meets the KEE ASTM D6754-02 Standard, the most stringent standard in the industry.

Fewer Installation Errors

FiberTite is only installed by highly skilled, authorized contractors.

Energy Efficient

Meets or exceeds the requirements for Energy Star, the Cool Roof Rating Council, and LEED.
